

japanese SCREWS

solving those tiny application issues

Micro machined screws and turned parts are now available from Japanese Screws.

At the cutting edge of technology our screws are manufactured using modified Micro CNC Swiss made machines, operated by fully trained and experienced staff.

Our products are used for dental implants, medical instruments, micro electronics, military and space satellite navigation.

We can supply, micro screws M0.4 to M0.8 thread diameter and a wide range of precision spacers and studs. We supply in many materials such as Stainless Steel, Titanium grade 2, 4 & 5, Cobalt - Chrome, Gold and a wide range of special materials.

The quality we offer, is world class.
