

japanese SCREWS

solving those tiny application issues

Micro Screw Kit

The ultimate micro screw prototype kit for design engineers!

We offer a range of 32 micro screws in one handy plastic container. The screws are a combination of machine screws and triangular tapping screws in different materials and plating finishes. All parts are fully labelled and the kit contains a screwdriver fitting all the screws supplied.

All made in Japan with world class quality!

Key Features:

32 different sizes and lengths in the kit.

20 types of machine screws with a diameter from M0.8 – M2.6 in various lengths.

12 sizes of triangular tapping screws for use into metal or plastic, diameters from M1 – M2.6.

200 pieces of each type of screw.

Email us for a detailed index of the contents, sizes and lengths.
